

END SEALS

SEALANTS FOR INWELLS OF FLEXOGRAPHY

Ibeslab manufactures end seals for all types of machines and closed chamber inkwells.

Ibeslab gaskets ensure a good seal and long service life.

ibeslab[®]

MAIN CHARACTERISTICS

- ✓ Possibility of additional coating to reinforce the durability of the piece.
- ✓ Suitable for all applications (UV, solvent based, water based)
- ✓ We send samples to test the product.
- ✓ Maximize sealing properties in closed chambers and minimize excessive pressure from doctor blade chambers.
- ✓ We have different cutting systems according to the requirements of the piece / customer.
- ✓ Availability of manufacturing in different materials depending on the piece.
